# LINDO

## *Camellias*

Illustrated above is the variety Kumasaka, a deep rose pink, which should be included in every Camellia collection. It is of irregular form, fully double, with flowers averaging 3 to 4 inches across. This variety forms a dense bush, grows upright rather than spreading, buds up heavily each year, and will tolerate more sun than many other varieties. It sets flower buds when still very small, is a mid-season bloomer, and a specimen tree of this variety is a beauty to behold.

# OUR CATALOG FOR 1943-44

In preparing this catalog it has been our aim to present to Camellia lovers an index to one of the largest collections of varieties in the United States, as well as one of the largest stocks.

At the present time we are growing over 500 different named varieties. Of many of these we do not have a sufficient stock to warrant listing in our catalog. We are always glad, however, to receive inquiries from Camellia enthusiasts for varieties not here listed.

The current listing includes the varieties of which we have a sufficient stock to offer them with practically no reservation. In our lath houses we have over 50,000 Camellias which gives us considerable latitude in supplying any reasonable demand.

We can usually fill your orders exactly, whether you order a dozen plants or a carload. Sometimes, however, there is an unanticipated demand for a given variety in a stated size. When these occasions arise, we either fill your order by giving you a plant of the variety ordered in the next larger size, or we omit the item from your shipment and make a refund to you. We do not substitute varieties unless you authorize us to do so, and then we prefer that you give us a second choice.

While Lindo Camellias may not know that there is a war on, the management does. The labor shortage is quite as serious to us as in other fields of endeavor, so to avoid disappointment, may we suggest that you place your orders early this season and instruct us to ship as early in the season as good judgment dictates.

*Lindo Nurseries, Chico, Calif.*

# OUR EXPERIENCE

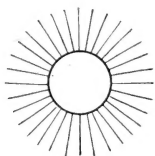

Lindo Nurseries have specialized in the growing of Camellias for over thirty years. During this time our stock has grown from a dozen varieties to over five hundred. From an entirely local distribution, our shipments have increased each season until now they are going into practically every community of the United States where the climate is hospitable to Camellias. In propagating, growing and shipping hundreds of thousands of Camellias, it is only natural that we should have accumulated a great fund of basic information on the subject. On the next three pages of this catalog we present the highlights of cultural requisites. We are always glad to assist you with additional information.

# OUR CAMELLIAS

Lindo Camellias are grown under conditions that are practically ideal, based upon our own experience and climatic conditions. All of our plants are strong, vigorous and healthy. Our nursery is regularly inspected by an entomologist of the California State Department of Agriculture, and all shipments to points within this state, and shipments to other states bear an inspection certificate.

Generally speaking, small plants are usually not well furnished with dense foliage. Some varieties, such as Kumasaka, illustrated on the cover, and Campbell, become very bushy when still quite small. Dense growth usually follows as a natural consequence when Camellias are planted out into the garden. With reasonable care and a generous application of good common sense, Lindo Camellias will delight the home gardener in those sections of the country where Camellias are successfully grown.

# CULTURAL HINTS

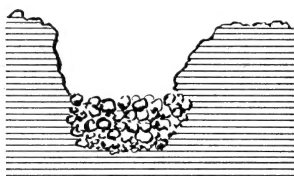

## EXPOSURES

Contrary to a general conception, Camellias do not thrive best in full shade. In such a location you get a lovely green foliage, but very few flowers. Nearly everywhere, they will

stand morning sun, and in many localities afternoon sun. Some varieties will tolerate more sunshine than others. The safe rule to follow is to give them as much sun as they can stand without burning the foliage. Sunshine produces more flowers.

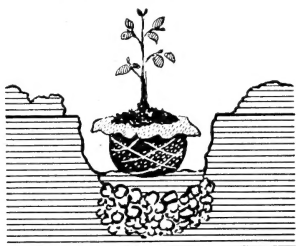

## SOIL

Since the feeder roots of Camellias are very fine and hair-like the soil should be loose and friable to give the roots an opportunity to forage. A mixture of  $\frac{1}{3}$  loam,  $\frac{1}{3}$  leaf mold, and  $\frac{1}{3}$  peat moss gives just about the right tilth to the soil as well as an acid reaction. Good drainage is

absolutely necessary. If your soil is heavy and water retentive, place some gravel in the bottom of the hole to drain away the excess water quickly.

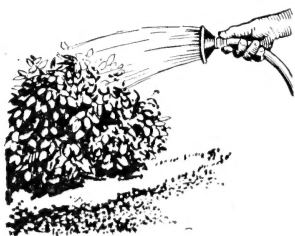

## PLANTING

Dig a hole at least 1 foot larger in diameter than the root ball of the Camellia. Fill this hole with the soil mixture mentioned above. Firm the soil in the bottom of the hole so that it will not settle after the Camellia has been planted. Place the Camellia so that the top of the root ball is even with the surrounding soil; fill

around the sides with soil, leaving a basin around the plant for water. Never plant a Camellia deeper than it was growing at the nursery.

## WATERING

Water Camellias immediately after planting, giving them a good soaking. Thereafter, keep the soil uniformly damp—not soggy. Never permit the soil to dry out and cake. The feeder roots are in the top few inches of soil and they cannot take up nourishment out of dry soil. All plant nourishment is absorbed in liquid

form. Water the plants overhead, as they never mildew and washing the foliage is very beneficial.

## FERTILIZING

You should use an acid reacting fertilizer, sold by most nurseries, and begin applying it in the spring just as soon as the Camellia is through blooming, as new growth is about to begin. Loosen the top half inch of soil with a hand cultivator as illustrated below, apply two handsfull of fertilizer around a small plant, more around larger bushes. Water immediately. Repeat applications once each month through July.

Camellias are top feeders and should never be cultivated deeply. It is well to keep the surface of the soil loose so that water will permeate and not run off. This is especially desirable after fertilizing. Use a hand cultivator and do not cultivate deeper than about  $\frac{1}{2}$  inch—just enough to prevent a top crust from forming. Weeds should be pulled by hand from immediately around the plant.

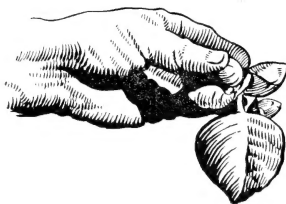

## CULTIVATING

Camellias very often set more buds than it is desirable for a plant to mature. To leave all of these buds on a plant causes it to exhaust its energy maturing a large crop of sometimes inferior flowers. By proper disbudding and fertilizing, you can appreciably increase the size of the blooms.

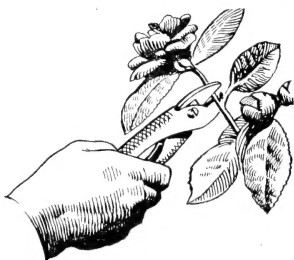

Leave but two buds to each terminal and be careful not to injure the sharply pointed leaf bud in removing the flower buds.

## DISBUDDING

A Camellia bush can be ruined by improper removal of the flowers. Flowers wanted for floating in a shallow bowl should be twisted off and leaves from other parts of the plant inserted where required in the arrangement. Those for corsages should be cut with shears or sharp knife, taking only two or three leaves with the flowers. Make the cut  $\frac{1}{4}$  inch above a leaf on the new wood which shows a dormant bud in the leaf axil.

## PICKING

# PLANTING SEASON

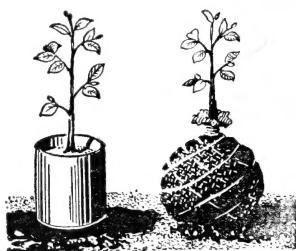

Under favorable conditions Camellias can be planted during almost any month of the year if bought in containers and the root system is not disturbed in transplanting. Balled plants are taken up in the nursery during the winter and

early spring when their plants are dormant, and should be set out in the garden at that time. In our nursery we normally ball Camellias from the first of November to the middle of April—depending upon weather conditions.

## BALLS OR CONTAINERS

Some Camellia buyers prefer to buy plants grown in containers and to accommodate this trade we grow a certain amount of stock in gallon cans. By far the lion's share of our stock, however, is grown in the ground under lath, and must be balled before shipment. This applies especially

to the larger sizes. Because of the light friable condition of our soil it fuses easily with the soil in the new location to which our plants are moved when sold. This adds much to the ease with which our plants grow and become established in their new homes. We pride ourselves on the vigor of our plants.

## NOMENCLATURE

The nomenclature of Camellias has been confused for over a hundred years. Oft times, the same Camellia can be bought in different nurseries under three to six different names. The nomenclature varies considerably between the deep South and the Pacific Coast. We are exceedingly careful in the labeling of our stock and we try to the best of our ability to give each plant its correct name. Because of this confusion we cannot guarantee that any plants you receive from us will be identical to those known to you under a given name and bought elsewhere. We do guarantee them to fit the descriptions carried in our catalog, and if you purchase all of your Camellias from us you should be able to avoid any duplications in your collection.

## COLLECTORS OF CAMELLIAS

For people collecting Camellias and those interested in a large number of varieties we have prepared a mimeographed list covering most of the varieties in our collection.

We invite your further inquiries and will be very pleased to send you the additional list mentioned above.

Where our stock is very limited we will take orders and graft plants for customers for future delivery. Small grafted plants can be delivered next Spring and large grafted plants on five and six year understock can be delivered next Fall, 1944.

# BRIEF DESCRIPTIONS OF LINDO CAMELLIAS

---

ALL VARIETIES, EXCEPT THOSE INDICATED BY AN ASTERISK, ARE PRACTICALLY ALWAYS AVAILABLE IN THE LISTED SIZES AND IN ALMOST ANY DESIRED QUANTITY.

---

**Akebono**—Chiffon Group No. 1. Sizes: Liners, 6, 18, 24 inches. Semi-double, beautiful salmon-pink, of exquisite formation, medium large. Blooms mid-season.

**Akebono Variegated**—Group No. 2. Sizes: 30, 36, 48, 54 inches. Semi-double, delicate pink with pink stripes, medium large. Blooms mid-season.

**Alba Plena**—Group No. 2. Sizes: Liners, 6, 9, 12, 18 inches. Pure white, symmetrical. No stamens, good formation, medium large. Blooms Dec.-Mar.

**Alba Plena Fimbriata (Fimbriata Plena)**—Group No. 1. Sizes: 6, 9 inches. Medium sized, pure white, full double. Flower is outstanding as each petal is fringed or feather edged. Blooms mid-season.

**Alba Superba (John G. Drayton)**—Group No. 2. Sizes 6, 9, 12, 18, 24, 36, 42 inches. Loosely formed flower showing stamens, pure white, large.

**Alba Supreme**—Group No. 2. Sizes: 6, 9, 12 inches. Pure white, symmetrical. No stamens, good formation, medium large. Blooms Dec.-Mar.

**\*Althea Flora**—Group No. 2. Sizes: 9, 12 inches. Deep pink, short petals, peonia type with stamens interspersed in petals. Blooms late.

**Amabilis**—Group No. 2. Sizes: 6, 9, 12, 18, 24 inches. Single white, nearly half of flower covered with yellow stamens, medium size. Blooms mid-season.

**Anita (J. H. L. Patchett Variegated)**—Group No. 2. Sizes: 6, 9, 12 inches. Semi-double showing stamens, beautifully streaked and splashed with deep pink, light pink background.

**Anna Frost**—Group No. 2. Sizes: 24, 30, 48, 54 inches. Peonia type flower, deep red, medium large.

**Apple Blossom**—Group No. 3. Sizes: 12, 18, 24, 30, 36 inches. Small single blossom resembling the apple blossoms. Slightly fragrant.

**Arajishi (Aloha)**—Group No. 2. Sizes: 6, 9, 12, 18 inches. Deep red pompon, almost round. Is a vigorous grower. Large flower. Few stamens interspersed with petals.

**Aspacia (Great Eastern)**—Group No. 1. Sizes: 6, 9, 12 inches. Peonia type, stamens intermingled. Deep orange red with an occasional white blotch.

**Auguste Del Fosse**—Group No. 3. Sizes: 6, 9 inches. Deep pink, symmetrically formed, petals fold back, medium large.

**Austell Pink**—Group No. 3. Sizes: 24, 30, 36, 48, 54, 60 inches. Peonia type showing stamens, deep pink, large.

**Belgian Red (Romany)**—Group No. 2. Sizes: 6, 9, 12, 18 inches. Full double symmetrical form, clear medium red, medium large.

**Belle Jeanette**—Group No. 3. Sizes: 36, 48, 54 inches. Full double symmetrical, deep pink, white blotches, large.

---

\*An asterisk (\*) before a name indicates a very limited quantity. All such varieties are subject to supply.

**Belle Romana**—Group No. 2. Sizes: 6, 9, 12 inches. Loosely formed showing stamens, extremely variegated, general color deep pink, very large.

\***Bessie McArthur**—Group No. 2. Sizes: Liners, 6, 9 inches. Rose color. Peonia type with heavy yellow stamens interspersed with large folded petals. Blooms March.

\***Bolen's No. 104**—Group No. 3. Sizes: 12, 18, 24, 42, 48 inches.

**Bolen's Late Tricolor**—Group No. 3. Sizes: 12, 18, 24 inches. Semi-double, pure white with red stripes or spots, large, blooms late.

**Brilliant**—Group No. 2. Sizes: 9, 12, 18, 24, 30, 36 inches. Symmetrical, full double, brilliant red, large.

\***Brooklyana**—Group No. 4. Sizes: 9, 12, 30, 36, 42, 48 inches. Deep medium pink, few white variegations. Symmetrical, petals curve down. Flower small. Blooms Jan.-Mar.

**Brooks Variegated**—Group No. 4. Sizes: 36, 42, 48, 54, 60 inches. Full double symmetrical, variegated with deep pink. Large.

**Campbell (Lady Campbell, Covina)**—Group No. 3. Sizes: 6, 9, 12, 18, 24, 30 inches. Loosely formed flower fairly symmetrical, shows stamens, deep pink, large flower, dense grower. Blooms Feb.-Mar.

\***Campbelli**—Group No. 2. Sizes: 30, 36, 48, 54, 60 inches.

**Candida Elegantissima**—Group No. 1. Sizes: 6, 9, 12, 18, 24, 30 inches. Semi-double irregular form, deep pink blotched white, extremely large.

\***Candidissima (Louise Centuroni)**—Group No. 2. Sizes: Liners, 12, 18, 24 inches. Full double, imbricated white, very regular, medium sized flower. Blooms Mar.

**Caprice**—Group No. 2. Sizes: 9, 12, 18, 24, 36 inches. Pure white, large flower, outer petals fold back, center petals very high; irregular shape, shows numerous stamens.

\***Celtic Rosea (Semi-Double Blush)**—Group No. 1. Sizes: 6, 9, 12, 18, 24, 30, 36 inches. Semi-double showing stamens, has the faintest trace of delicate pink, medium small.

**Chancellor**—Group No. 2. Sizes: 12, 18, 24, 30, 36 inches. Pompon type flower, deep pink blotched white, medium large. Blooms Oct.-Mar.

**Chandleri Elegans**—Group No. 2. Sizes: 6, 9, 12, 18, 24 inches. Semi-double, pompon center, deep pink blotched white, extremely large.

**Chico**—Group No. 2. Sizes: 12, 18, 24, 30, 36 inches. Full double, symmetrical, light pink flecked with rose. Medium.

**Christine Lee**—Group No. 2. Sizes: 6, 9, 12, 18 inches. Semi-double with yellow stamens. Bright red. Large flower. Blooms Feb.-Mar.

\***Christmas Cheer**—Group No. 3. Sizes: Liners, 6, 9, 12 inches.

**Christmas Red**—Group No. 3. Sizes: 6, 9, 12, 36, 48 inches. Single, medium small flower, brilliant red.

**Clevina**—

**C. M. Hovey**—Group No. 2. Sizes: 6, 9, 12, 18 inches. Double symmetrical, shows stamens when fully open. Deep red with occasional white blotches, is the variegated form of Wm. S. Hasti and various synonyms. Extremely large flower.

**Colonel Firey**—Group No. 1. Sizes: 6, 9, 12, 18, 24, 30 inches. Extremely double, very symmetrical, brilliant red, large. Blooms late.

**Compte de Gomer (Madonna Pink)**—Group No. 3. Sizes: 9, 12, 18, 24, 30, 36, 42 inches. Full double symmetrical form, delicate pink background flecked with numerous minute rose specks, general coloring delicate pink, medium large.

\***Countess of Orkney**—Group No. 2. Sizes: 12, 18, 24 inches. Full double symmetrical, delicate pink striped with red. Medium large.

**Daikagura**—Group No. 1. Sizes: 6, 9, 12, 18, 24 inches. Loosely formed peonia type, very deep pink, very large. One of the first to bloom in the fall. Sept.-Mar.

**Daikagura Variegata**—Group No. 2. Sizes: 6, 9, 12, 18, 24, 30 inches. Same as Daikagura except for having clear white blotches.

**Daikagura (Predominately white)**—Group No. 2. Sizes: Liners, 12, 18 inches. Same as Daikagura Variegata except the coloring is predominantly white instead of red.

**Dante (Pine Cone White)**—Group No. 2. Sizes: 6, 9, 12, 18, 24 inches. Full double, very symmetrical, high center, pure white, medium large. Blooms Dec.-Mar.

\***Derbyana**—Group No. 2. Sizes: Liners, 9, 12 inches. Rose pink, full double, yellow stamens. Petals cup up. Large flower. Blooms Mar.

**Dixie Pink**—Group No. 2. Sizes: 6, 9, 12 inches. Deep pink with few white stripes. Symmetrical flower of medium size.

\***Donkilari (Southern)**—Group No. 1. Sizes: 6, 9 inches. Semi-double flowers, deep pink, beautifully blotched with pure white, large.

**Duc de Bretagne**—Group No. 3. Sizes: 24, 30, 36, 42, 48, 54, 60 inches. Small semi-double, deep clear pink showing stamens.

\***Duchess de Rohan**—Group No. 3. Sizes: 18, 24, 30, 36, 42 inches.

\***Duchess of Sutherland**—Group No. 1. Sizes: 9, 12 inches.

**Ecstasy**—Group No. 2. Sizes: Liners, 6, 9, 12 inches.

**Elena Nobile (Napa Red)**—Group No. 2. Sizes: 9, 12, 18, 24, 30 inches. Very full, double, very symmetrical, deep clear red, large. One of the latest to bloom. Mar.-Apr.-early May.

**Elizabeth**—Group No. 2. Sizes: 18, 24, 30, 36, 42, 48 inches. Medium sizes, symmetrical, white with pink stripes.

**Ellen McKenzie**—Group No. 2. Sizes: 18, 24, 48 inches.

**Emperor of Russia**—Group No. 1. Sizes: 6, 9 inches. Peonia type, stamens intermingled, deep orange red.

**Enrico Bettoni**—Group No. 3. Sizes: 6, 9, 12 inches; limited quantities up to 72 inches. Irregular formation, medium red, medium large.

\***Eulalie Sally**—Group No. 1. Size: 6 inches. Semi-double, brilliant red showing stamens, large.

\***Fanny Boles**—Group No. 2. Sizes: 6, 9 inches. Loosely formed flower, shows stamens deep pink, blotched white, large.

**Francine (Chandleri Rosea)**—Group No. 1. Sizes: 6, 9, 12 inches. Semi-double, pompon center, deep pink, extremely large.

\***French Peonia**—Group No. 3. Sizes: 18, 24, 30, 36 inches. Full double symmetrical, deep pink, medium large.

**French Variegated**—Group No. 3. Sizes: 12, 24, 30 inches. Medium pink with pronounced veining. Few white blotches. Loosely formed, symmetrical. Medium flower. Blooms Jan.-Mar.

\***Governor Mouton**—Group No. 2. Sizes: 6, 9, 30, 42 inches. Brilliant red, pompon center. Medium blossom. Blooms Feb.-Mar.

**Grandiflora Rosea**—Group No. 2. Sizes: 6, 9, 12, 18 inches. Semi-double, outer petals turn back, prominent stamens, deep rose, extremely large.

**Guilfoyle's Helenor (Guilfolius Hellena)**—Group No. 2. Sizes: 6, 9, 12, 18, 24, 36 inches. Full double, very symmetrical, medium pink streaked with fine deep pink stripes, large.

- \*H. A. Downing**—Group No. 2. Sizes: Liners, 6, 9, 12 inches. Loosely formed flower fairly symmetrical, shows stamens, deep pink, large flower.
- \*Haley's Monarch**—Group No. 2. Sizes: 6, 9, 18, 24 inches. Peonia type, deep pink. Large.
- \*Harlequin**—Group No. 3. Sizes: Liners, 9, 18, 24, 30, 48, 60 inches. Symmetrical full double, light pink, streaked with deep pink, large.
- \*Henry VIII**—Group No. 2. Sizes: 9, 48, 54 inches.
- Hikari Gengi (Herme, Jordon's Pride)**—Group No. 2. Sizes: 6, 9, 12, 18, 24, 30 inches. Loosely formed flower, fairly symmetrical, sometimes shows stamens other times has pompon center, blended with three distinct shades of pink. Large.
- Hopkin's Variegated**—Group No. 2. Sizes: 6, 9, 12, 18 inches. Semi-double, deep pink with white blotches, prominent stamens. Large.
- Hopkin's White**—Group No. 3. Sizes: 12, 18, 24 inches. Single white with yellow stamens. Blooms early.
- \*Horkan Variegated**—Group No. 3. Sizes: 48, 54 inches. Peonia type, white with occasional pink stripe, medium blossom.
- II Tramento (Laurel Leaf, Lallarook)**—Group No. 2. Sizes: 9, 12, 18 inches. Symmetrical, full double flat flower, medium pink. Good color and texture. Large.
- Imperator**—Group No. 2. Sizes: 6, 9, 12, 18, 24 inches. Pompon type shows some stamens, deep red. Large.
- Jarvis Red**—Group No. 2. Sizes: 6, 9 inches. Pompon center, brilliant red, medium large.
- \*Jennie Lind (Duchess de Orleans)**—Group No. 3. Sizes: Limited supply 18 to 72 inches. Symmetrical, white with one or two pink lines to a flower, medium size.
- John Laing (Henry Favre)**—Group No. 3. Sizes: 30, 36, 42, 48 inches. Full double, symmetrical, medium pink, medium large.
- June (Large Walker)**—Group No. 1. Sizes: 6, 9, 12, 18 inches. Loosely formed flower, medium red, very large.
- \*Kumasaka (Beni Koroka)**—Group No. 2. Sizes: 6, 9, 12 inches. Double, irregular form showing stamens within the center, very fine deep pink, large flower.
- Lady de Sumerez**—Group No. 3. Sizes: 6, 9, 18, 24 inches. Small red with pompon center.
- Lady Vansitart (Lady Vansetti)**—Group No. 2. Sizes: 6, 9, 12, 18, 24. Semi-double showing stamens, cup-shaped red flower with white blotches. Large.
- \*Lavinia Niggi**—Group No. 2. Sizes: 36, 42, 48. Peonia type, white with pink blotches, medium large.
- Lena Superba**—Group No. 2. Sizes: 6, 9, 12, 18 inches. Loose peonia type, deep pink blotched with white. Large.
- Lotus (Grandiflora Alba, Sodekakushi)**—Group No. 1. Sizes: 6, 9 inches. Very large pure white lotus like blossom. Long yellow stamens. Blooms Mar.
- \*Madame Faucillon**—Group No. 3. Sizes: 24, 30, 54 inches. Deep pink with occasional white stripe. Symmetrical, medium sized.
- \*Madame de Strekaloff**—Group No. 2. Sizes: 18, 24, 30 inches.
- Marchioness of Exeter**—Group No. 1. Sizes: 6, 9, 12, 18, 24, 30 inches. Loose peonia type flower. Delicately formed, deep pink. Large.

**Marguerite Gouillon (Duc de Orleans)**—Group No. 2. Sizes: 6, 9, 12, 24, 30, 36, 42, 48 inches. Semi-double, pompon center, light pink heavily streaked with deep pink. Medium large.

**\*Martha Leggett**—Group No. 2. Sizes: 12, 18 inches.

**Mathotiana Alba (Blood of Christ)**—Group No. 2. Sizes: 6, 9, 12, 18, 24, 30, 36 inches. Pure white, usually has one tiny pink spot on a flower, extremely full double, very symmetrical. Very large.

**\*Mathotiana Rosea**—Group No. 1. Sizes: 9, 12 inches.

**\*Matsukasa (Pine Cone)**—Group No. 2. Sizes: Liners, 9, 12, 18 inches. Shaped like a pine cone, high centered regular formation, rose pink blotches with white. Medium large.

**Miss Dora McCarter**—Group No. 2. Sizes: 12, 18, 24 inches. Large single white with long yellow stamens. Blooms Feb.-Mar.

**Monjishu Variegated (California Donkilari)**—Group No. 2. Sizes: 6, 9, 12, 18 inches. Semi-double, fairly symmetrical, shows stamens, deep red with large clear white blotches, sometimes solid red. Large.

**Montironi**—Group No. 2. Sizes: 6, 9, 12 inches. Large white, extremely double, deep pink splashes over some petals and sometimes flowers come a solid pink.

**\*Mosspoint Variegated**—Group No. 3. Sizes: 6, 9, 12, 18, 24, 42 inches. Large outer petals, pompon center, deep pink blotched with white. Large.

**Mrs. Abbey P. Wilder (Cameo)**—Group No. 3. Sizes: 6, 12, 18, 24, 30, 36, 48 inches. Peonia type, rose pink. Medium large.

**\*Mrs. Luerman**—Group No. 3. Sizes: Liners, 24, 30, 36, 42 inches.

**\*Mrs. Fred Sanders**—Group No. 3. Sizes: Liners, 48, 54, 60 inches. Medium size single white with yellow stamens.

**Mrs. Wm. Thompson (Grandiflora Alba)**—Group No. 1. Sizes: 6, 9, 12 inches. Semi-double, two rows of petals, extremely large flat flower. Stamens and petaloides in center.

**\*Mrs. Millar Wilson**—Group No. 2. Sizes: 6, 9, 24, 30, 36 inches.

**\*Napa Pink**—Group No. 3. Sizes: 30, 36, 48 inches.

**Natchez**—Group No. 3. Sizes: 6, 9, 12, 36 inches. Semi-double, swirled petals in center with stamens. Medium large blossom. Blooms Mar.

**Nellie Cohen**—Group No. 3. Sizes: 6, 9, 24, 36 inches.

**\*Nobelissima**—Group No. 2. Sizes: Liners, 6 inches. Peonia type, pure white, medium large. Blooms Oct.-Mar.

**Normandie**—Group No. 2. Sizes: 6, 9, 12, 18, 24, 30, 36, 42, 48 inches. Pompon type deep pink flecked with white. Large.

**\*Opelon's Peony**—Group No. 3. Sizes: 18, 24, 30, 36, 48 inches.

**\*Otome**—Group No. 2. Sizes: 12, 18, 24, 36, 48, 54 inches.

**Panache**—Group No. 2. Sizes: Liners, 6, 9 inches. Full double, medium large and symmetrical. Flower is unusual in marking being white in center with deep pink at base of petals. Outer petals streaked with deep pink giving an appearance of heavier shading at outer edges. Blooms Dec.

**Peoniaflora**—Group No. 2. Sizes: 6, 9, 12, 18, 24, 30, 36, 48 inches. Peony type, large pompon center, white blotched with deep pink. Extremely large.

**Pink Ball**—Group No. 2. Sizes: 6, 9, 12, 18, 24 inches. Medium sized flower, delicate pink with pompon center.

- \*Pink Countess of Orkney**—Group No. 2. Sizes: Liners, 6 inches. Rose pink, cup shaped, symmetrical, few white variegations. Blooms Feb.
- Pink Hikari Gengi (Pink Herme, Wings)**—Group No. 2. Sizes: 6, 9, 12, 18, 24, 30 inches. Loosely formed flower fairly symmetrical, sometimes shows stamens, other times has pompon center. Solid pink in coloring.
- \*Pink Jeanerette**—Group No. 3. Sizes: 6, 9, 12 inches.
- \*Pink Pearl**—Group No. 2. Sizes: 6, 9 inches. Full double, symmetrical, clear pink with veining, medium size.
- Pink Perfection**—Group No. 3. Sizes: 6, 9, 12, 18 inches. Full double, very symmetrical, shell pink, medium large. Blooms mid-season.
- Pink Star**—Group No. 2. Sizes: 6, 9, 12, 18, 24 inches. Semi-double about two rows of petals open out flat, light pink color shows veining, very large.
- Pope Pius IX**—Group No. 2. Sizes: 6, 9, 12 inches. Full double very symmetrical, brilliant orange red color. Large.
- Pride of Rosebud Farm**—Group No. 2. Sizes: 6, 9, 12, 18, 24, 30 inches. Semi-double, shows stamens, petals crinkly, deep rose pink with white blotches. Large.
- \*Prince Albert**—Group No. 3. Sizes: 9, 12, 18, 36 inches.
- Princess Nagasaki (Mallott Variegated)**—Group No. 2. Sizes: 6, 9, 12, 18 inches. Loosely formed flower fairly symmetrical, deep rose pink with clear white blotches. Large.

\*Lindo No. 27—Group No. 2. Sizes: 6, 9 inches.

Lindo No. 106—Group No. 2. Sizes: 9, 12, 18 inches.

---

*Our collection includes over five hundred varieties of Camellias. Only a comparatively small number of these are listed above. We welcome inquiries.*

---

In our stock of Camellias, we have hundreds of plants in sizes larger than those indicated on this list. These, however, may include only a few of each size in each variety, and therefore do not justify our listing them.

We invite your inquiry on these larger sizes, and will be glad to furnish any information on such stock.

Most of the plants mentioned above are beautiful large specimens.

---

## INFORMATION TERMS, WARRANTY, SHIPPING

---

Prices in this list are f. o. b. Chico, California. All transportation charges are to be paid by purchaser. We exercise great care to ship by the cheapest and best routes and to secure the lowest rates on all shipments. Residents of California will please enclose 2½% State Sales Tax.

### TERMS

Cash with order, except for customers having established charge accounts.

### SUBSTITUTION

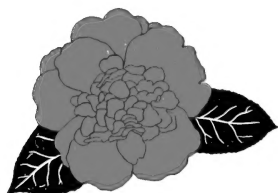

We do not substitute varieties, but in some cases will make minor size substitutions.

### OUR WARRANTY TO YOU

Lindo Nursery stock is strong and vigorous. Our plants carry a reserve strength that makes them grow easily and quickly in your garden. This, coupled with the fact that our soil fuses readily with other soils, makes it easy to establish our plants. They start to grow in your garden immediately and will continue in a vigorous condition. Our varieties are guaranteed true to name and description under which they are sold. There is a great confusion in nomenclature and many varieties are sold under various synonyms. We are constantly on the alert for these synonyms and sell our plants under the names most generally accepted.

in both rare and standard varieties. Write us for further  
information.

*Lindo Nurseries, Chico, Calif.*

Printed by HURST & MOORE, Chico, Calif.

Shown above is the gorgeous variety Coloney Firey. This is one of the large imbricated Camellias—the arrangement of the petals presenting that regularity which many Camellia lovers fancy. The flower is a deep vibrant red and the petals are of unusually fine substance. This is one of the large flowered varieties. Blooms on a well fertilized and disbudded plant will average from 4 to 6 inches in diameter. The color of the bloom is so “alive” that it attracts attention even at a considerable distance. This variety begins to set buds when about 18 inches tall and thereafter becomes more floriferous each year until it reaches maturity. If you like red Camellias, we would recommend Colonel Firey without any reservations.
